Education

Chandigarh University

Bachelor of Engineering, Computer Science Engineering — SGPA: 8.0/10

Mohali, Punjab

Aug 2025 – May 2029

Technical Skills

Languages: C, C++, Python, JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js 14 (App Router), HTML5, CSS3, Tailwind CSS, Three.js, Framer Motion, Recharts

Backend & Cloud: Node.js, Firebase (Firestore / Auth / Hosting), Vercel Serverless Functions, REST APIs

Mapping & Geospatial: Leaflet, Mapbox GL, Google Maps Distance Matrix API, react-globe.gl (WebGL)

AI & Data: OpenRouter API (LLM Integration), NewsAPI, Keyword-based Sentiment Analysis

Hardware / IoT: Arduino, Sensor Integration, SOS Modules, Voice Messaging Hardware

Tools: Git, GitHub, VS Code, Postman

Projects

RevvUp | Next.js, Tailwind CSS, Firebase

Jan 2026

- Engineered a digital ecosystem for car modification enthusiasts with a high-fidelity visual interface to track vehicle builds and connect users with modification vendors.

SafeMap AI — Next.js 14, Three.js, WebGL, OpenRouter API, NASA EONET/USGS/OpenWeather

Jan 2026

- Architected a real-time global travel safety platform aggregating 5+ live data streams into a unified 0–100 safety score, with a WebGL 3D globe and an AI safety chatbot; won 3rd place (₹20,000) at Escape The Vincii '26 among 100+ teams.

Women's Safety SOS Device — Arduino, GPS, Voice Messaging

Feb 2026

- Built a rugged hardware-software SOS device for rural India that auto-transmits a distress voice message with live GPS to emergency contacts over low-bandwidth networks; presented at IIT Delhi "Build for Rural India" as a national participant.

Other projects: VANGUARD (IoT heritage digital twin), MindCanvas (anonymous mental-health diary, Firebase), RevvUp (car-mod community platform, Next.js).

Experience

Hardware & Software Mentor — Metamorphosis 2026, IIT Delhi May 2026

Tale of Humankind × Academic Outreach & New Initiatives, IIT Delhi

- Mentored 10th–12th grade 150+ students through a week-long hardware/software prototyping residency at IIT Delhi's CMF Labs, guiding teams from circuit design to a judged final exhibition.

Hardware Mentor & Core Team Member (Paid Internship) — YCB S7, IIIT Delhi Edition Jun 2026

Tale of Humankind × IIIT Delhi

- Core organizing team member and hardware mentor for a 7-day national bootcamp guiding 9th–12th graders through masterclasses to a final pitch-deck competition.

Program Head, App & Web Development (Paid Internship) — YCB S7, IIT Madras Edition 2026

Tale of Humankind × IIT Madras

- Taught App & Web Development to 45 students at IIT Madras and co-taught UI/UX (Figma) to 44 students at the IIIT Delhi edition — ~90 students mentored across two cities.

Independent Full-Stack Developer & Founder — Self-Initiated Startup Projects Jul 2025 – Present

Convert real-world pain points into functional MVPs within 24–72hr cycles as sole owner of the full product lifecycle; Finalist, Build for Bharat hackathon

Honors & Achievements/Certifications

- HACKATHON WINNER:-** Escape The Vincii '26 Hackathon (CGC Mohali): Awarded ₹20,000 cash prize for SafeMap AI out of 100+ competing teams.
- National Participant, IIT Delhi "Build for Rural India" Hackathon:** Developed and presented a hardware IoT SOS solution for women's safety in rural areas.
- Finalist, Build for Bharat Hackathon (Chandigarh University):** 3-day intensive dedicated to building high-impact technological solutions for India.
- 3rd Place (Departmental), Quantum Computing Presentation Competition:** Researched and presented on the technical future of qubit-based computation.
- Chess Strategist:** 1600+ rated on competitive platforms; Undeclared (2–0) in CU Chess Tournament against 1600 and 1300 rated opponents.
- Introduction to GenerativeAI** — LinkedIn Learning: LLM fundamentals and AI-driven development workflows.
- Introduction to Psychology** — Coursera: Applied to UX design and human-centered product development.
